LANDCRUISER - SAHARA TURBO

Number One for luxury!

If you want ultimate 4WD capability with all the comforts, the high roof Sahara is the LandCruiser for you.

Inside it's luxury for eight, with dual air-conditioning and extras like power windows, central locking, sunroof, electronic touch-tune AM-FM stereo radio/cassette and an ice maker/ refrigerator.

Underneath there's refinement that's easy to feel. Softer springs, longer wheel travel and twin-tube gas shocks give a

more supple and compliant ride. Improved power steering, ventilated front discs, quad halogen headlamps, two-child restraint anchorage points and the tough Toyota chassis are standard, but you can choose between 4.0 litre, 6-cylinder petrol or direct injection turbo diesel power and five-speed manual or four-speed auto.

If you don't need all that luxury, there are seven more standard roof wagons to choose from, all or which still offer a level of comfort that ensures you'll travel in style.
