# LAND CRUISER STATION WAGON

Tackles the roughest roads

Power and strength, combined with luxury and comfort make Land Cruiser Station Wagon the leading 4 Wheel Drive vehicle in its class.

Land Cruiser is equally at home on the highway or on the harsh tracks of the Outback, and handles easily in any conditions, with safety and style.

Power is provided from either a petrol or diesel six cylinder engine. Power steering and disc brakes make light work of rough tracks.

Designed to take the hard knocks, the Land Cruiser Station Wagon has been further improved by the addition of 5 speed manual transmission on both Standard and Deluxe models.

The 5 speed transmission ensures improved fuel economy and reduced noise when travelling at highway speeds, and for even better cruising the Deluxe model now features wide chrome rims and steel radial tyres.

The Land Cruiser Deluxe is built tough, but it doesn't expect the passengers to be the same. Passengers and driver are pampered by comfortable cloth-covered reclining front seats, AM/FM Stereo Cassette Player, fully carpeted interior and front and rear heating. Other features include a quartz digital clock, clinometer that indicates the vehicle's angle of inclination, remote control rear door lock, tachometer and many more.

Land Cruiser Station Wagon is built with the traditional Toyota toughness and quality which makes Land Cruiser "the most wanted 4 wheel drive on earth".

DELUXE STATION WAGON

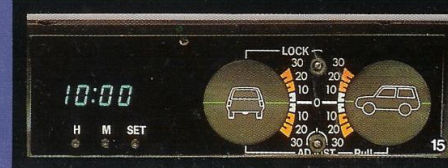

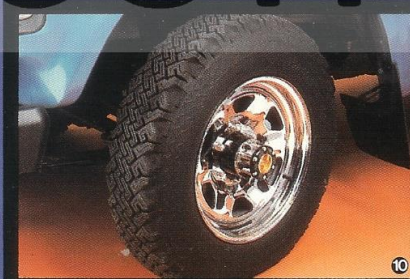

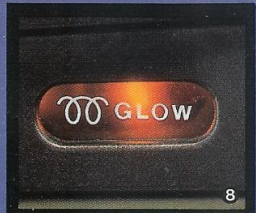

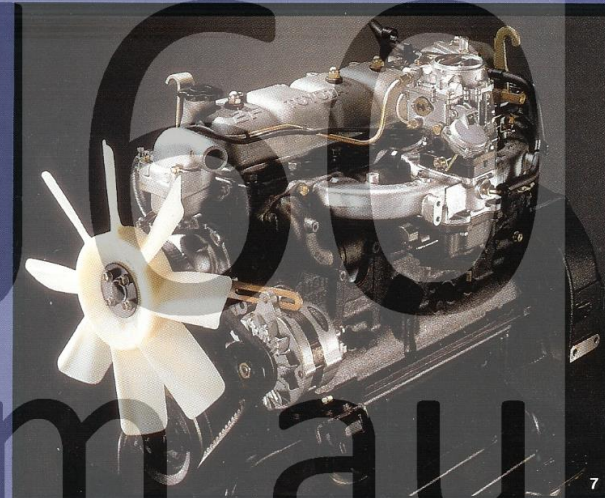

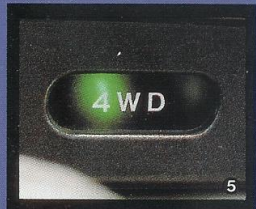

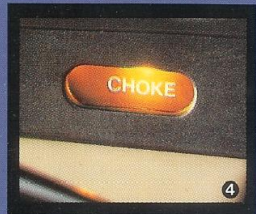

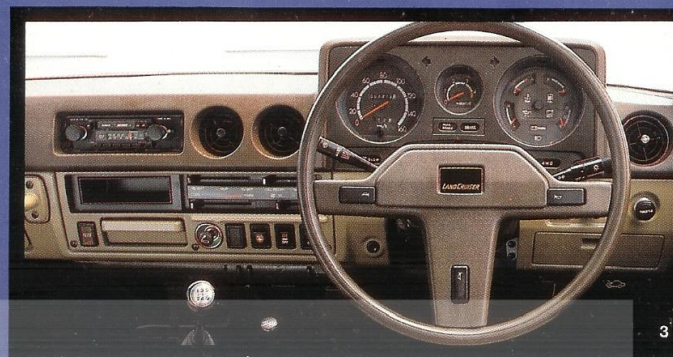

STANDARD STATION WAGON

# LAND CRUISER STATION WAGON

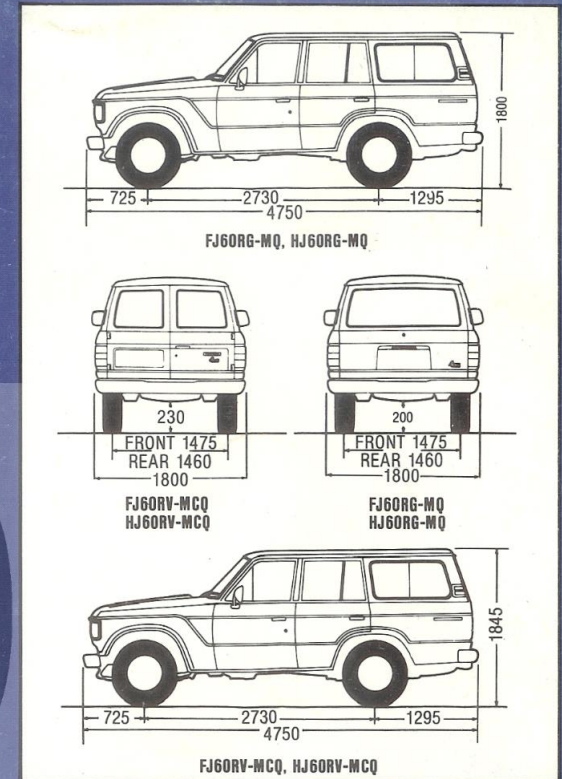

Cruises the longest highways

## DELUXE WAGON FEATURES:
